Greetings and welcome to our second issue of 'Impact', our E-newsletter. In the maiden newsletter, our Dean, Prof. (Dr) Mohan Varma presented 'Impact' as a reflection of the emergence of diverse views and ideas of all stake holders through connectivity and networking. The phenomenal changes thus brought to the perceptions and performances of our institution, make a great impact in the life and performance of every one of us, which would in turn transform our intellectual outputs. He also outlined our strategic plans to work according to the values of WCAS: Wisdom, Commitment, Achievement and Service that can engender a firm commitment for a total development of students and faculty, which would eventually steer the college to higher academic standards.

This issue of the newsletter gives you a glimpse of various events organized by and participated in by WCAS. You are requested to browse through inspirational articles by our Dean and faculty members which focus on our values

and learning techniques.

We recognize the efforts of our faculty members who have given their time and energy to carry out research and present their papers in National and International journals. 'An act of goodness is an act of happiness' - we are proud to inform you that our staff and students have participated in the noble cause of "Blood Donation Program." A step forward, a milestone in the making - 'the most sought after' campus placement was organized and coordinated by the parent organization BIT, Mesra, Ranchi, India, successfully, providing placements to students of WCAS. Another feather in the cap, WCAS has awarded the most coveted 'Gold Medal' and the 'Certificate of Appreciation' to the best performers in every discipline during our convocation ceremony. The convocation ceremony was very impressive and one of the major event of the year. There was a sense of unity, oneness and integrity between the waljat fraternity. A warm welcome was extended to the Vice -

Chancellor who flew in to grace the occasion. It was his first visit to Oman. The celebration of Omani Women's Day was scintillating. The students of WCAS rolled up their sleeves and participated in the clean -up campaign of the Qantab beach while they were on a trekking trip organized by the Adventure Club. "Charity begins at home"- A visit to the 'Child Care Centre' was an eye opener and a noble experience for our students. Education empowers people, and students of WCAS participated and won prizes in the Inter Collegiate Quiz competitions. Students are presently very enthusiastic and excited about the Second Career Fair which is to be held on the 14th of March, 2011. The student community is geared up to do something different and productive in the college. "Look at a day when you are supremely satisfied at the end. It's not a day when you lounge around doing nothing; it's when you've had everything to do, and you've done it" as said by Margaret Thatcher to enthuse the new generation. Thankyou and hope you enjoy this issue.

Gold Medal and Certificate of Appreciation

WCAS has instituted a “Gold Medal” award to the best performer with the highest Cumulative Grade Points Average and a “Certificate of Appreciation” to an outgoing all-round performer from every discipline, which are awarded in the convocation ceremony every year.

Receipients of Gold Medal awarded in convocation 2010 are:

Mr. M.BALASUBRAMANIAN – EMBA
Ms. SHILPA SUDHAKAR – BBA
Ms. ALONI M. MEHTA – MBA
Ms. IMAN A. AL RAWAHI – BCA
Mr. AYMAN AL MAYAHI – BBA Part Time
Mr. DEBESHWAR D. GUPTA – BE

Certificate of Appreciation awardees are:

Mr. MOOSA NASSER AL KINDI – EMBA
Ms. SAFIYA HUMAID AL AWAISI – BBA
Ms. VIDUSHI TALWAR – MBA
Ms. GHALIYA HUMAID AL OWAISI – BCA
Mr. HILAL ALI AL MAQBALI – BBA Part Time
Mr. SAKET ANAND – BE

Campus Placement: A step forward, a bright future in the making

The most sought after campus placement for final year students was organized and coordinated by the parent University BIT, Mesra, Ranchi (India) in the month of December, 2010. Many multinational firms turned up to offer various jobs to the graduating students. Waljat College students also participated in this event and successfully got some of the best offers.

Poonam Jairaj Amin

Abhishek Bishwas

Sricharana

Sriswetha

Ms. Sriswetha Rajagopal and Ms. Sricharan Rajagopal, both from the Department of Computer Science got final job offers from Infosys Technologies Ltd and Cognizant Technology Solution respectively. Ms. Poonam Jairaj Amin and Mr. Abhishek Biswas also got offers from Infosys Technologies Ltd and Cognizant Technology Solution respectively.

Visit to Child Care Centre

Students of WCAS visited the Centre of Child Care in Muscat on Sunday, December 5, 2010, coinciding with the National Day celebration, which involves each resident in this country. The students interacted with the children and involve them in the various social events. Students were accompanied by the Head of Student Affairs, Ms. Alia Bin Saeed Rawahi, who praised the efforts of students in the education of the children and the dedication of

the people who provide utmost care and compassion in proper upbringing of children. She also said that the people who have been doing good humanitarian work would be truly rewarded by God Almighty and have the support of His Majesty for achieving this noble goal at all levels. The faces of these children lit up on receiving the gifts in the joyful company of college students. The main objective of the trip was to acknowledge the efforts of the workers at the centre and also to contribute in our little way towards the joy and happiness in the hearts of the children.

Quiz Participation

At Majan College

Waljat College students participated in the Inter Collegiate Business Quiz held at Majan College under the guidance of Ms. Nupur Sen on 26th April, 2010.

First Prize Winners:

Ms. Georgina Salim
Mr. Mihir Pradip Asher
Mr. Yasser Abdul Aziz

Third Prize Winners:

Ms. Sweeta P. Vargheese
Mr. Bejo Mathew
Mr. Ronak Kanak Asher

At Ibra College

Waljat College students participated in the "Inter Collegiate Quiz Competition" held on 1st November, 2010 at Ibra College of Technology.

Mr Mohammad Mohatram from the Electrical Engineering Department and Ms Seema Varsney from the Management Department accompanied the students.

The following students represented the college:

Ms. Sabah Said Al-Harthy
Ms. Fatma Rashid Al Habsi
Ms. Fathya Salim Al Daihami

A grandfather was talking to his grandson. He said, "I feel as if I have two wolves fighting in my heart. One wolf is the vengeful, angry and violent. The other wolf is the loving and compassionate." The grandson asked him, "Which wolf will win the fight in your heart?" The grandfather answered: "The one I feed."

Trekking & Clean-Up Campaign

The Adventure Club of Waljat College of Applied Sciences organized a cleanup campaign at the trekking path C52 and Qantab beach in the Capital area on February 14, 2011. Forty staff members and twenty students from different departments led by Mr. Jyoti Chandel, Head of Management department and Mr. Akash Agrawal, President of Student Council participated in the cleanup campaign of the trekking path. The basic objective of this

campaign was to have eco-friendly adventure activities and also to inculcate the habit of having environment friendly fun-filled activities amongst the staff and students. Students are encouraged to join in these sort of eco-friendly adventure activities to create awareness and habit of maintaining cleaner and eco-friendly environment. The Adventure club of WCAS keeps organizing such activities at least once in a semester. You are requested to participate in the next event.

Blood Donation

WCAS hosted a team from the Central Blood Bank, at Blood Services Department of the General Directorate of Health Affairs, to collect blood units from staff and students in the college premises at KOM, Rusayl.

As blood donation is a humane and noble act in addition to its health benefits, the purpose was met with an overwhelming response from staff and students, and thus playing their significant role in serving the community.

The Dean, Prof. (Dr.) Mohan Varma and the Administration & HR Manager, Mr. Hamoud bin Ali Al Jabri thanked the Blood Donation Services team and all its personnel. They urged all citizens and residents to participate in blood donation camp whole heartedly because of its importance in reviving and saving human beings.

Omani Women's Day

WCAS celebrated the Omani Women's Day on marking the remarkable achievements of women in the Sultanate under the guidance and support of His Majesty Sultan Qaboos Bin Said. The programme began with the recitation of the Holy Quran by a fellow student, followed by welcoming the chief guest Dr. Ayida Al- Hajiri, a former member of the Shura Council. She expressed her appreciation to be celebrating this day, and the efforts of everyone in raising the status of women in the Omani Society to remarkable heights, and the equal rights given in employment, education, right to run for elections and other civil rights. After forty years of Renaissance, Omani women have reached a prominent place under the able guidance of His Majesty. Dr. Alia Rawahi, Head of Student Affairs thanked her for her presence in celebrating the day with WCAS, and gifted a memento as a token of appreciation.

CONVOCATION 2010

The fourth Convocation Ceremony of Waljat College of Applied Sciences (BITIC Muscat) was held on January 16, 2011 at Al Noor Plaza, Muscat. H.E. Dr. Hilal Al Hinai, Secretary General of The Research Council of Sultanate of Oman was the Chief Guest of the function. The other dignitaries present on the occasion included H.E. Dr. Omar Zawawi, Founder of WCAS, Dr. Ajay Chakrabarty, Vice Chancellor BIT, H.E. Mr. Anil Wadhwa, Indian Ambassador to Oman, Mr. M.M. Khan, Chairman and other members of the Trustee Council of WCAS. A galaxy of distinguished personalities representing Government Agencies, Corporate and Scientific Institutions, Community Elders, and Press and Media graced the function.

The Graduate, Postgraduate Degrees and Diplomas of Birla Institute of Technology were conferred on 369 recipients who had completed their respective academic requirements in the year 2010. The medals for academic excellence and certificate of merits were also given away by the Chief Guest to meritorious students.

The function started with the recital of verses from the Holy Quran. The Vice Chancellor BIT, Mesra delivered the welcome address and Prof. (Dr.) Mohan Varma, Dean, WCAS presented the report on the activities and achievements of the College.

Wisdom is the distillate of knowledge. It is acquired gradually, in the process of knowing the essentials of life, learning things which others do better than us and pursuing efforts in the field of interest to be counted as better than others. Learning is a lifelong process. One should aspire to learn more and more. Even a renowned scientist like Isaac Newton, at a matured age, stated: "I do not know what I may appear to the world, but to myself I seem to have been only a boy playing on the sea-shore, and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me". In essence, the vistas of knowledge are virtually unlimited.

In our quest of knowledge, the formal education in today's world plays a predominant role. The three 'R's of learning - Reading, wRiting and aRithmetic start playing a vital role in building up the foundation of learning from early days in school. Subsequently, as we grow up, the intense competition around us dictates the need to be a quick learner, a creditable performer and possibly a role model for others. The most important thing in life is to plan the goal meticulously. Many of us leave the planning and execution of the plan for tomorrow and tomorrow never comes.

VIEWPOINT

Youth of today are the leaders of tomorrow and it requires a sustained and dedicated effort to educate, nurture and produce outstanding human beings with character, commitment and creativity to ensure a consistent inflow of men and women who can take a nation on a dream development path way. The passionate work of these GEMs (genuinely efficient men, of course women included), in different walks of life, leads to all round growth in various sectors of economy, prosperity for the country and also a better quality of life to fellow citizens as a by product. Today, as the world is shrinking or as they call it becoming a 'global village' due to advances in technology and integration in business arena, it gives us better opportunity to learn from others, compete with others and excel in the chosen field.

In this background, wisdom becomes an important tool to leverage advantage over competitors. Wise men seize opportunity and their counterparts squander it. Inertia and resistance to change coupled with a lax attitude towards life has been the bane for many individuals who later in their lives regret their folly. There are many who blame their family, teachers and friends or even their stars for their failures in life. The crux of the matter is 'bad craftsmen blame their tools'.

Preparing and training the students to be the best in the business with appropriate knowledge base, skill and virtue is the utmost priority of our college. Let wisdom dawn on all stakeholders to play their respective role with distinction and honor.

Dean, Dr. Mohan Varma

*Wisdom is doing
what to do
next, skill is
knowing how to
do it and virtue
is doing it.*

--David Jordan

Differentiated Instruction : Teacher's Perspective

What is a "typical" classroom? Teachers know that every class includes diverse learners—some struggling, some advanced, and all with different life experiences, learning preferences, and personal interests. Differentiated instruction adapts instruction to meet the needs of individual learners, providing all students with the appropriate level of challenges and the appropriate supports to help them reach learning goals.

Differentiated instruction is grounded in an understanding of how people learn. Instruction begins with an assessment of what students already know, and builds new concepts on their existing knowledge. Differentiation provides students with varied experiences to engage with content. A differentiated classroom offers multiple ways for students to access content, to process and make sense of the concepts and skills, and to develop products that demonstrate their learning. Technology supports classroom strategies by creating new routes to learning, addressing multiple learning needs, and providing forums for individualized access to content and expression.

Intelligence is not a fixed quantity, but can be amplified through rich learning experiences. Vigorous learning actually changes the physiology of the brain. Students learn best when presented with moderate challenges — not so

difficult that the learner feels threatened, and not so simple that the learner "sails" through without having to think deeply or solve new problems. Struggling learners are seldom well-served by homogeneous grouping. However, advanced learners can benefit from accelerated classes. In effective homogeneous classrooms, the needs of all learners are specifically and systematically addressed.

Anchoring activities help teachers manage class time and by creating meaningful activities that students work on independently—at the beginning of class, when students are finished with assignments, or when waiting for help.

- ✓ Differentiate standards-based instruction. Standardized learning goals do not imply "one-size-fits-all" instruction. Differentiation opens multiple paths to help your students reach the goals.
- ✓ Engage students in setting their own learning goals. Learning contracts, personal goal-setting, and other strategies help students recognize that they have a stake in their own learning.
- ✓ Build on what students know. Recognize that students build new understanding onto what they already know. Take time to assess their individual starting points then provide students with a choice of ways to engage with key content.
- ✓ Engage multiple learning styles. Recognize that students' learning

vary widely and provide them with opportunities to build on their strengths.

- ✓ Use grouping wisely. Think about how to group students effectively for different learning activities. Avoid stable homogenous grouping, which can be a detriment to struggling students. Support group efforts by teaching students to mediate conflicts and manage their time effectively. Help all students find a way to contribute to the group's success.

Teach skills for success. Reinforce learning skills that will help all students be successful learners, such as note taking, summarizing, research strategies, and collaboration.

- ✓ Provide opportunities for student choice. Give students ample choices and encouragement to pursue projects that interest them as part of regular classwork. Provide students who are ready for more challenge with opportunities to tackle independent research projects.
- ✓ Vary assessment strategies. Use multiple assessments including portfolios and performance assessments that will allow all students to demonstrate what they have learned.

Ms. Indrani Basu
Head - English Dept

POTPOURRI

Thesis Topic

It's a fine sunny day in the forest, and a rabbit is sitting outside his burrow, tip-tapping on his typewriter. Along comes a fox, out for a walk.

Fox: "What are you working on?"

Rabbit: "My thesis."

Fox: "Hmm... What is it about?"

Rabbit: "Oh, I'm writing about how rabbits eat foxes."

Fox: "That's ridiculous! Any fool knows that rabbits don't eat foxes!"

Rabbit: "Come with me and I'll show you!" They both disappear into the rabbit's burrow. After few minutes, gnawing a fox bone, the rabbit returns to his typewriter and resumes his work. Soon a wolf comes along.

Wolf: "What's that you are writing?"

Rabbit: "I'm doing a thesis on how rabbits eat wolves."

Wolf: "You don't expect to get such rubbish published, do you?"

Rabbit: "Come with me and I'll show you!" The rabbit and the wolf go into the burrow. The rabbit alone returns after a few minutes, and goes back to typing. Finally, a bear comes along and asks, "What are you doing?"

Rabbit: "I'm doing a thesis on how rabbits eat bears."

Bear: "Well that's absurd!"

Rabbit: "Come into my home and I'll show you".

Scene: As they enter the burrow, the rabbit introduces the bear to the lion.

Moral: IT DOESN'T MATTER HOW SILLY YOUR THESIS TOPIC IS; WHAT MATTERS IS WHOM YOU HAVE AS A SUPERVISOR.

Let Us Laugh

Patient: Doctor! Everything seems to be double for me. Please check my eyes.

Doctor: Do all four of you have the same problem?

Mother: Sonu! Don't go near the Water (Sea). Play here in the sand.

Sonu: But Mummy, Father is swimming and playing in the sea.

Mother: That is okay. He is insured.

Patient: Doctor, It is the first time I am going to have an operation in my body. I am worried so much.

Doctor: Don't worry. Even, it is the first time for me, see. Am I worried?

Wife: I see! Whenever I enter your room, you wear your new spectacles. Why?

Husband: Doctor has advised me to wear these when I get a Headache.

A sales person and the manager are walking to lunch when they find an antique oil lamp. They rub it and a Genie comes out in a puff of smoke. The Genie says, "I grant wishes, now you can wish one by one."

"Me first! Me first!" says sales person. "I want to be in the Bahamas, driving a speedboat, without a care in the world." Poof! He's gone.

"OK, you're up," the Genie says to the manager.

The manager says, "I want him to be back in the office after lunch."

Moral: Always let your boss have the first say.

Vice Chancellor's Visit

A warm welcome was accorded to the Vice-Chancellor, Dr. Ajay Chakrabarty on his first visit to Waljat College on 16th January at 11.00 am by the Dean, Admin & HR Manager and faculty members of Waljat College. At 11.30 am, he launched the inaugural issue of the E-News Letter 'IMPACT' in presence of Mr. M. M. Khan, Chairman, Trustee Council and the Editorial Team of Impact.

He was taken for a tour of Waljat College by the Dean and Admin & HR Manager. He showed keen interest in the laboratory facilities of the college. In the afternoon, the VC interacted with the students.

On the 17th morning, the VC interacted with the Head of the Departments and Faculty members of Waljat College and met with the Vice Chancellor of Sultan Qaboos University in the same afternoon.

On the 18th morning, he had a meeting with H.E. Dr. Omar Zawawi, Founder of Waljat College and members of Trustee Council of the College.

The same evening Dr. Chakrabarty returned to Ranchi.

Alumni Cell at WCAS

Waljat College of Applied Sciences is truly proud of its brilliant alumni who are currently positioned all over the globe and have distinguished themselves in multitudinous profiles across a range of business domains. The Waljat Alumni Cell was formed in October 2010 with an objective to foster and coordinate eternal relationships based on strong networking of Waljat alumni and create a single global community. The alumni cell intends to facilitate provisioning of a pleasant and friendly interface to their alma mater. Our mission is to increase meaningful interactions between student-alumni and faculty-alumni on a regular basis for mutual benefit and to create a data base repository concerning alumni details and also to improve it on a continuum. Moreover, we intend to harness the available Information Communication Technology tools to develop and offer best possible alternatives concerning networking applications to our alumni. Through the establishment of alumni cell, WCAS has taken the first step in the right direction to kindle, nurture and develop relations and communications with the alumni through the website, publications, visits and events. The alumni cell aims to set up a variety of effective ways for the institute to assist alumni in their lifelong learning processes. It shall also provide assistance in establishing synergistic ways for alumni to be involved with current students and offer guidance in their career and employment endeavours through internship and mentoring opportunities.

Mithun Shrivastava & Israel, D: Published a paper "Predicting Select Mobile Service Preferences Based on Demographic Profile of Mobile Users in Oman" in the International Journal of Mobile Marketing, 5(1), 98-112.

Srilekha Goveas: Paper entitled 'Music and Work Life Balance' is accepted for Conference presentation in absentia in the International Conference on Technology and Business Management (ICTBM-11) in SZABIST, Dubai, to be held on March 28, 2011.

Dr. Sheeba Khan: Paper entitled "Relationship of Job Burnout and Type A Behaviour on Psychological Health among Secretaries" has been accepted for

publication in the International Journal of Business and Management, Volume 6, Number 6, 2011.

Ms. Blossom Christina: A research paper entitled "Status of Omani Women Entrepreneurship" has been accepted for publication in SDCMT, Ghaziabad in their Annual International Journal "The Great Management Guru", January - February 2011.

Dr. Ganesh P. Mishra: Attended a two day course on "Corporate Social Responsibility and Environmental sustainability" organised by the Center for Community Service and Continuing Education, Sultan Qaboos University on 14 - 16 Feb 2011.

Dr. A. Prakash and Dr. A. Pareek: participated in a symposium "The Grant writing and Research Management" on January 24 - 26, 2011 organised by Nizwa University at Nizwa, in a joint Collaboration with the Research Council of Oman. The objective of the symposium was to impart knowledge about grant agencies, grant proposal writing, technicalities and review procedure of the grant proposal.

Jyoti Kumar Chandel and Dr. Ganesh P. Mishra: Attended "Leadership Development Programme" on January 25-26, 2011 organised by Knowledge Initiatives.

Career Fair 2011

Waljat College of Applied Sciences is organizing its Second Career Fair on March, 14, 2011 at the college premises. The Career Fair 2011 will be of one day duration starting at 9.00 am till 6.30 pm. Several leading companies are expected to participate in the second edition of the Career Fair at Waljat college of Applied Sciences.

The Career Fair 2011 is not limited to the students of Waljat College of Applied Sciences; rather students from other professional and technical colleges in Oman are also invited to participate in the career fair to explore the possibilities of exciting career in several local and multinational companies. Dr. Mohan Varma, Dean, Waljat College of Applied Sciences, believes that career fair is a platform that enhances the options for the students to find a suitable job and provided in-house exposure to students about the activities and requirements of participating companies.

In the year 2010, Waljat College of Applied Sciences had organized its first Career Fair on March 24, 2010. The leading companies of Oman had participated in the event. The event was a huge success in terms of the response of the companies who participated in the fair.

Students from the final and pre-final years in the courses such as Bachelor of Engineering, Bachelor of Computer Applications, Bachelor of Business Administration, Masters in Business Administration, and Executive Masters in Business Administration and students with respective diploma are expected to participate in the Career Fair 2011.

Training Programme

A training programme has been initiated on Research Methods and Statistical Analysis for post graduate management students of our college and is scheduled to commence from mid of March, 2011. Through this training programme, an effort has been made to equip students with improved skills in construing management problems and in undertaking business research and statistical analysis using select data analysis software(s). A number of faculty members at WCAS shall be contributing as resource persons in the programme, and shall be sharing their research experiences drawn from diverse disciplines.

The students for the training programme have been selected through a two phase process involving select parameters, viz.; academic performance in Quantitative Techniques in Management course followed by personal interviews.

Quality @ Waljat

Together we can !

The art of writing

WCAS aims at providing quality education to talented students. Quality education in turn demands for quality documentation. Every physical process, activity or transaction that we do on a daily basis should be clearly and precisely documented in a standard fashion. This greatly helps us to isolate errors and keeps us on track to meet targets and deadlines.

WCAS has, on this regard, adopted several forms and procedures to help the faculty, staff and students document their work. These forms are available on the College Intranet for download and daily use.

The following points can be helpful while documenting work or activities,

- 1) Keep documentation alongside the actual process and do not leave it till the end.

- 2) Streamline information so that it makes your documentation work easy and you don't end up duplicating information.

- 3) Use the correct documentation method, form & numbering scheme for the correct activity or process.

Google Docs

- 4) Your college email has an inbuilt documentation feature called Google Documents, which is a great tool for saving notes and documents.

- 5) Understand the College Plagiarism Policy and provide proper references if you are preparing a report or an article

Documentation may take some of your time, but it helps you to be ready for the future in the long run

Get Involved ! For further information contact the quality team on quality@waljat.net
