07-05-2020

### **GUIDELINES FOR LABORATORY PRACTICALS & ASSIGNMENTS**

Any of the below mentioned option can be adopted by the students for Projects / Lab / Assignments based on Laboratory experiments during the study suspension period:

#### **Option-1**

Students of Engineering branches can undertake Scientific Research Paper through Review based, Secondary Data or Software driving Projects in place of Lab Experiments in view of COVID-19 threat, which has restricted students' entry to the College.

Students can select Research Topics under the guidance of faculty members in their area of specialization.

At least minimum 3 to 4 chapters should be there in the Scientific Research Paper, viz:-

1. Introduction of the Topic
2. Literature Survey
3. Data Analysis
4. Findings and Conclusion etc.

Assessment for such students will be done online through google meet.

#### **Option-2**

Students who are unable to undertake option-1 for their projects / Lab work, we can organize their lab experiments/ practical after the final examination, may be in 3<sup>rd</sup> or 4<sup>th</sup> week of June 2020 subject to the approval of MoHE in anticipation of normalization of public life after Covid-19 situation or during the month of July 2020 before publication of final results by BIT.

However it is to be noted that the result publication of students going for option-2 may get delayed as it is dependent on the normalization of current situation.

HoDs and faculty members may conduct practical examinations through on-line Google Meet by creating separate class rooms and PPT presentations for students opting for option-1.

HoDs / Coordinators are required to coordinate with students and faculty members and inform undersigned on the status of above by 14-05-2020.

Prof.(Dr.) S.L. Gupta  
Dean
