The Department of Computer Science & Engineering of Waljat College of Applied Sciences held an alumni talk on Sunday, 19th November 2017. The talk was presented by one of the students of the 2007 batch, Mr. Majid Salam Al Bakri.

Presently Mr. Majid is working as the Manager in his own start up venture by the name GL3 Light LLC. The company is taking projects in the various field including Imaging Services, Interior Design, Graphic Design, Web Design, Phone Applications, Events Management Software Design and so on. The session lasted for more than one hour. The students from BCA 4th and 5th Semester attended the interaction program.

After a brief presentation by Mr. Majid, students asked lots of questions on how to prepare Curriculum Vitae, How to attend an interview etc. He advised the students to value the technical experience they would receive at first opportunity rather than the financial factor. He also promised to give training and internship to two students of BCA during their semester break. He definitely made an impression on the students. The entire event was met with much appreciation and thankfulness from the students.

At the end, Dr. Akrati Koul, who was the initiator of this event, gave vote of thanks and Dr. Vijaya and Dr. Anu Manchanda gave away a Memento and Certificate of Appreciation to Mr. Majid.
