

## “Various roles of a Biotechnology Engineer in different Bio fields of Oman”

### Objectives:

- To enhance knowledge of students.
- To bring awareness of future in Biotechnology.
- To know working role of a person in industries/Companies.

The Alumni summarized the role of an Biotech Engineer person in various fields, several domain of expertise one can pursue for one's professional growth. Mr. Moni Shankar Prasad also suggested gaining better knowledge during the curriculum.

The Alumni elaborated role and responsibility of an Biotech person in their respective field of expertise viz, Testing techniques & modules, various project development modules Etc . Students also inquired about placements in different organizations. It was a Wonderful experience for all students.

Students were acquainted of latest trends & practice in Biotech Field. We (all Staff members and Students) are very much thankful to Dean, Prof. Dr. S.L.Gupta, Wajjat College of Applied Sciences, Head of Biotechnology Engineering Department and Alumni Committee for giving their valuable support. We are also very much thankful to Mr Moni Shankar Prasad for dedicating his valuable time for students interaction session.

As a token of appreciation and gratitude Mr Monishankar Prasad was presented with a Memento and Certificate by Dr Sharmila Queenthly.
