PC Assembly **Workshop**

PC ASSEMBLY WORKSHOP

A workshop was conducted on PC ASSEMBLY on 13th March, 2018 by Kranthi Kiran Jalakam along with Gaurav T. Achrekar, Avinash Gopal, Nikhil Philip Jacob, Fadhila Musabah Hamood Al-Maamari, Hozefa Saifee Barwaniwala from BE CSE 8th semester for the Foundation students.

Kranthi, who built a PC entirely on his own from scratch about two years back, had interest in PCs since childhood. He had also participated and won various inter-college competitions on Building a PC in Oman. During the two hour sessions held from 9.30AM-11AM and 11.30AM to 1PM, he had led the session forward with conviction and even answered numerous doubts that the students asked. The students appreciated his confidence and grip on the subject thus, bolstering them to share their knowledge and ideas as well with others.

This workshop provided a platform for students to exchange their knowledge with others thus improving the overall skills of a student and making them aware of information other than the subjects in the academic curriculum. Moreover, the students attain various other skills like presentation and time management that would aid them in the long run. The students thanked Dean Prof Dr. S.L. Gupta, Assistant Dean Dr. Alok Khuswaha and Dr. P. Vijaya, Head of Academic Support Services, Mr. Roby Varghese, Head of English Department and Ms. Kothar Salim Al-Rawahi for their support and encouragement in organizing workshop that was completely managed by the students. Additionally, Mr. Binu Zachariah and Mr. Sunil Varghese from IT Support Services were very cooperative in providing the required hardware for running this workshop successfully.
