## Picnic / Cleanup Drive

Guides are the ones who show the way by leading, directing or advising. They are also role model for everyone they lead. Environmental Club of WCAS with the objective of “Youth for Environment” organized cleanup drive along with Social Club on 14/3/18 at Manumah Beach, Muscat to create the awareness among the students, the importance and how everyone should be a good steward of the Earth. Environmentalism is an ideology that evokes the necessity and responsibility of humans to respect, protect, and preserve the natural world from its anthropogenic afflictions. Environmental Club Coordinator, Mrs. Atiya Tabassum, Secretary of Environmental Club, Ms Jinal Bakhai along with other faculty members, Dr P. Vijaya, Dr Seema Gupta, Dr Seema Varshney, Mrs. Anasuya Patil and Mrs Kusum Lata Mishra had gathered at the venue along with the students. The students have shown great enthusiasm during the whole event by cleaning a large area of the beach. This drive has focused few issues of harmful waste materials which affect the aquatic life and water pollution.

The day was filled with games and activities including Tug of War, Running Race, etc. which the students thoroughly enjoyed. The students also celebrated women's day at the picnic by making a formation of the word 'Womens Day'.

The picnic was a good break for students and faculties who joined. The students are thankful to the college for organizing this event.
