Gathering

“8th Engineering Student Gathering”

Students of BE-Biotechnology - VIII Semester, WCAS, Jenifer Caroline Johson, Anjima Rajan and Shobhy Sosa Andrewa participated in the 8th Engineering student gathering from 8/4/2018 to 11/4/2018, organized by Engineering Society, College of Engineering, SQU, and presented their project “Analysis of Antifungal Properties and Production of Bioethanol”.

Economic and Environmental sustainability was the main focus of the gathering highlighting how Engineering and Technology can be applied to improve and achieve a better use of energy resources allowing future generations to meet their own needs and prepare individuals to become contributing members of the community and the World.
