Workshop

WCAS organise Workshop on R Programming for Final Year Students

Waljat College of Applied Sciences organized a two-day workshop on R Programming for final Year Students in the spacious college premises. Twenty students participated in the workshop. It was organized & conducted by WCAS faculty members, Dr. P Vijaya, Ms. Anasuya Patil and Mr. Satish Chander. They introduced the basic concepts on R Programming, Installing and Exploring the R Environment, Basics of R, R Data Structures, Essential R functions, Plotting in R. and made the class interactive by giving hands on training for the students to solve and thereby enhance their knowledge. The workshop highlighted the use of free and open source software, which is freely available on internet. R offers various packages which helps in analyzing and visualization of data.

The workshop promoted the idea of expense free and license free software for statistical analysis. The program was ended with the question answer session, the attendees appreciated the sharing of knowledge and the way the training took place and felt enlightened.

Dean Professor (Dr.) S.L. Gupta, WCAS appreciated Dr. P Vijaya, Mr. Satish Chander and Ms. Anasuya Patil, for their efforts in making the meet successful.
