Foundation Students participate in Inter College Spell Bee

Scientific College of Design organized an Inter College Spell Bee for Foundation students of various colleges on 18th April 2018. Three participants from Foundation Program of Waljat College of Applied Sciences – Noof Hamed Al Quraini, Yahya Said Al Asmi and Marya Abdul Majeed Al Balushi participated in the event for the first time. The students were accompanied by Mr. Roby Varghese and Ms. Aarti Vats.

The competition was organized by the English Club of Scientific College of Design. Although our students performed exceedingly well in most of the rounds, the contestants could not earn a place in the final round due to the tough competition. However, the event provided a platform for the students to hone their spelling skills and learn the nuances of participating in similar competitions.

Certificates of appreciation were presented to winners, participants, and accompanying staff members. Such opportunities not only encourage the students to expand the horizon of their learning but also foster the values of hard work and commitment amongst students.
